-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, and 27-37, drawn to a fuel injector in an engine having an ECU for providing an electrical signal to activate the fuel injector to deliver fuel from the fuel injector, classified in class 123, subclass 472.
  - II. Claims 6-14, and 38-44, drawn to a system to input fuel injector data in an ECU when replacing a fuel injector in an engine, classified in class 701, subclass 103.
  - III. Claims 15-22, drawn to a service of engine requiring fuel injector replacement, classified in class 123, subclass 480.
  - IV. Claims 23-26, drawn to a method for providing fuel injectors for an engine, classified in class 123, subclass 480.
2. Inventions Group (I), Group (II), Group (III) and Group (IV) are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions Group (I), Group (II), Group (III), and Group (IV) have separate utility such as the different inventions can be used in a materially different processing. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their difference classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and Groups I, II, III, and IV are individually separated and distinct from each other.

Art Unit: 3747

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, neither Group III, and neither Group IV restriction for examination purpose as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
